Hi- this is what I think it looks like, correct anything you don't agree with.

1. DVW stuff (sampling plan, 30% cap design)
2. Tradepoint B15 Response and Development Work Plan
3. Amtrak ISS Work Plan SOPs
4. Chemours Potomac River Works CMS
5. Tradepoint A4 Response and Development Work Plan
6. Tradepoint Area B Groundwater Report - VI and SW items
7. Tradepoint B18 Work Plan
8. Celco stuff

9. Institute – 4 risk reports

Also have to review weekly Lockheed Martin turbidity reports throughout Fall-Winter dredging season.
